Sad story, but they celebrate anyway...

A woman went to her Doctor and was told she had cancer and had 6 months left to live. The woman went out to the waiting room and told her daughter. They were sad, but decided to go to the 19th Green Tavern and celebrate her life. The Mother and daughter shared stories and soon were laughing about all the good things that had happened in the Woman's life.

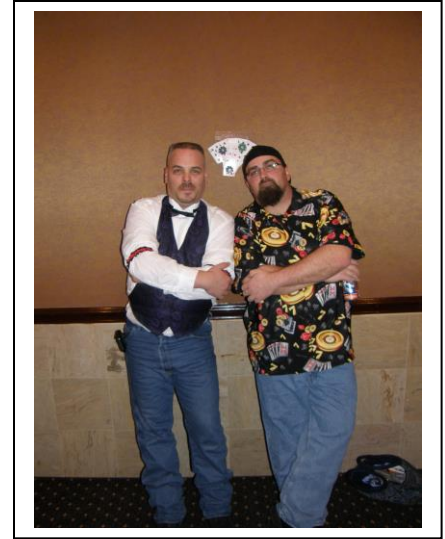

A few friends of the woman heard them laughing and came over and asked what they were celebrating. The woman told them, actually we have sad news, but were are trying to celebrate my life. My Doctor told me I have Aids and only have 6 months to live. The woman's friends gave here her condolences about hearing such sad news and rushed off.

The woman's daughter said "I thought you told me the Doctor said you had Cancer, why did you tell your friends you had Aides?" The woman told her daughter "Because I didn't want any of those hussies sleeping with your Father after I'm gone."
